Good catch. I'll fix that.

Should I add Julianne's name as an alternate?

Hi Khesha,

This look right but the lake is in MT and BC, not Washington. I assume that's what the "WA" stands for in this title: "Lake Koocanusa, WA Monitoring and Research Committee and Working Group". I think the WA can just be deleted.

Thanks,
Karen

Subject: International Portfolio Spreadsheet

Good Afternoon,

Attached is a version of the quarterly spreadsheet capturing OW's international portfolio. Please update your items and return the spreadsheet to me by COB Friday, March 27th so that senior OW management can continue to evaluate how expansive we are/want to be. If you prefer, I just sent you an online version where you can make edits in real time in the document and save. If you have others who will be editing, please send me their names and I will add them to the list so they can also edit directly. Whichever version you choose to use, please highlight all edits with yellow highlighting so I can easily see where changes were made. Finally, please send me an email once all of your office's edits have been completed so that I know.

Each office is listed in a different color so feel free to sort for your office only and delete the other rows when you return to me.

Thanks,

Kate
